

Green Pastures VETERINARY CENTRE

Dental Treatment - Dogs

Important Information: Please do not feed your dog **after 8pm** the night before their procedure. Please do not give them anything to eat the morning of the procedure. Water should be left available for them overnight.

What is included in the 'Happy Smile Package'?

- **Pre-operative blood screen** allows a thorough organ assessment to allow the safest anaesthetic possible.
- **Intravenous fluids** to support your pet's circulation and blood pressure.
- **Gold standard anaesthesia** using the safest agents possible.
- **Gold standard monitoring** throughout the procedure including blood pressure, oxygen and CO2 levels, vital signs and anaesthetic depth.
- **Full mouth dental x-rays** to assess each tooth individually as pets suffer from painful cavities that are out of sight below the gum line.
- **Dental charting** to provide a record of any affected teeth and the procedures carried out.
- **Ultrasonic scaling and polishing** to clean the surface of the tooth.
- **Post-operative check-up** 2 days following their dental treatment to check how they are doing at home.
- **Dental care discussion** where you will be given a teeth cleaning kit and taught how to care for your pet's teeth.
- **A 3 month follow up appointment** to assess how the homecare routine is going.

What happens while your dog is with us?

We will take you through our consent form and discuss the procedure with you. This is your opportunity to ask any questions that may have. Following this your dog will be settled into their bed and be given time to relax after the journey to Green Pastures in our dog only ward. Once settled they will be given a pre-med to relax them further and provide pre-emptive pain relief. We will then carry out the dental treatment. Your dog will be monitored closely during the procedure and on recovery by one of our nurses. Once awake they will be given another examination, food, water and taken outside for a walk. A discharge appointment will be made at a time that is suitable for you over the phone if one has not been arranged already. Home care instructions and medications will be discussed with you at this discharge appointment.

Additional procedures

At Green Pastures, we are happy to carry out additional procedures while your dog is in for their dental. These include nail clipping and microchip implantation. If you require anything extra please speak to the admit nurse to discuss any additional procedures you would like to have done. Please note any additional procedures will incur extra charges.

Pricing

£320 – this includes all of the listed above.

If any diseased or painful teeth require removing this will incur extra charges. We will call to discuss this with you so please ensure you are available on the day of your dog's dental.

This does not include the costs of any additional procedures carried out.
